

FOR IMMEDIATE RELEASE

CellTrust and Samsung Globally Launch PULSE Pager Replacement Activated on Samsung Galaxy Gear, Opening up a New Dimension in Secure, Hands Free Communication for Healthcare

Samsung has Partnered with CellTrust to Provide a Secure, Hands Free, Rapid, Redundant, Cross-team Messaging and Pager Replacement for Healthcare

MOBILE WORLD CONGRESS, BARCELONA, SPAIN and HIMSS14, ORLANDO, FL – February 17, 2014 –CellTrust Corporation, a global leader in secure mobile communication announced today the launch of [CellTrust PULSE™ activated on Samsung Galaxy Gear™](#).

With simultaneous product launches at [Mobile World Congress 2014 in Barcelona, Spain](#) and at the [HIMSS14 Annual Conference and Exhibition in Orlando, Florida](#) - CellTrust and Samsung deliver a secure, hands free, rapid, redundant, cross-team messaging and pager replacement solution for critical healthcare communication.

Healthcare professionals around the world are often confronted with the same communication challenges: multiple and often cumbersome paging devices, communication dead spots and ever increasing regulatory compliance requirements for the electronic transmission of patient information.

“Samsung is deeply committed to driving and implementing innovation that will enhance the lives of real people,” said Jongshin Kim, Vice President of Enterprise Business Team at Samsung Electronics. “Supporting the secure messaging and smart pager technology from [CellTrust PULSE on](#) our industry leading Samsung Galaxy Note 3® and Gear means medical personnel can have the superior connectivity and security of Samsung devices to quickly and easily respond to critical alerts, notifications and messages so they can focus on treating their patients.”

“The Samsung CellTrust partnership allows for a very close integration between the PULSE app and Samsung devices to deliver a seamless secure messenger and two-way pager,” said Sean Moshir, Chairman and CEO of CellTrust Corporation. “By taking advantage of certain Samsung special features, as well as the Samsung Galaxy Gear integration, together we open up a new dimension in secure hands free communication.”

CellTrust PULSE will be on display at [Mobile World Congress 2014 in Barcelona](#), February 24-27, in Samsung Mobile’s B2B zone, Hall 3, with CellTrust staff present to demonstrate the Application running on Samsung Galaxy Note 3 and Galaxy Gear devices.

Simultaneously, CellTrust PULSE will be on display at the [HIMSS Annual Conference in Orlando](#), February 24-27, CellTrust booth # 5883, and at the Samsung booth # 503 with members of the CellTrust team demonstrating the Application running on Samsung Galaxy Note 3 and Galaxy Gear devices.
